

## Let's talk about Children's Asthma...

**Study day designed to enhance the asthma management skills for health care professionals in the community carrying out structured reviews.**

The study day will be led by Specialist Asthma/Wheeze Nurses and cover:

- Talk from Paediatrician on the anatomy and physiology of asthma and preschool wheeze in children
- Update on current issues in management of asthma
- How to identify children at risk of an asthma attack and asthma deaths
- Lead GP for children's asthma talk on treatments / medicines.
- Correct use of spacers and inhalers
- Case studies
- Asthma Action Plans
- Meet other practice nurses

There will be practical elements to the day with time to ask questions on any issues that have been affecting your practice.

Certificate of attendance which counts towards 8 hours of CPD

Tea and Coffee available.

Free parking onsite.
